PRHR 114

Kodiak Tensioner

TMD

HIGH STRENGTH

1 1/4" x .029" / .031" Steel Strap

Proven Strength in heat treated high tensile strapping. ASTM D3950 pegs the strength at 5450 pounds minimum with nominal running 5850.

ALLSTRAP OPINION:

Finally, battery powered tools are available for 1 1/4" steel strapping. Try the [Kodiak pusher combo tool](#), or the [Grip Pack 114 Tension](#) and [Sealer](#) as a two tool solution. Try the cart that includes a [Tool Mounted Dispenser \(TMD\)](#) to make your heavy tools mobile!".
